

Taking advantage of the tools at hand

You have access to a wealth of retirement information and tools through your Group Retirement plan. Accessing them is easy! Simply use your group retirement website to access your account on-line.

What advantages are there to accessing your account online?

Among other things, you can:

- check your current account balance
- see how your investments are performing
- explore investment information and make changes if necessary
- confirm your beneficiary designation
- review your member statement
- take advantage of the retirement calculator

Use the retirement calculator to track your progress

Many plan members obtain short-term peace of mind from their annual vacation and it can take significant time and effort to plan. Did you know that it can take less than ten minutes to plan your retirement? And having that plan for retirement in place can give you peace of mind for the long-term.

The retirement calculator available on the secure member website can help you set a retirement income goal, create a plan and monitor your progress to ensure that you are saving enough for retirement. And you can continue to monitor that progress on an ongoing basis both on the website summary and also on the first page of your member statements.

Need help or more information?

You can contact your insurance carrier to register for online access, or for investment or retirement questions, contact Reuter Benefits by phone at 1-800-666-0142 or by email at retire@reuterbenefits.com.
